

Demolition Trailers Reach A New Level

Demolition trailers have reached a new level with the unveiling of the Demolition Demon from JMH Trailers Inc.

JMH Trailer's Demolition Demon Steel Dump Trailer *The Ultimate Light Iron Demolition Trailer*

This extra heavy-duty demolition trailer is the first in the series of steel demolition trailers targeting the demanding needs of the demolition and wrecking industry.

At 70 inches high with a round steel barrel body and a 47 cubic yard payload capacity, the Demolition Demon is quite possibly the world's toughest demolition trailer.

The Demolition Demon is a 34' I-Beam framed steel trailer, precision engineered and constructed of 450 Hardox™ in 3/16th to 3/8th thick, depending on your needs. Standard with 5 ribs design, additional ribs can be added for heavier applications.

The Demon is also available in a frameless model which features "4 on the floor" dumping capabilities where an ABS equipped, 102" 25,000 lb. rear axle and wheels remain on the ground during the entire dump process. The four on the floor feature delivers increased safety and stability.

Watson and Chalin ® provide the single point suspension on the standard Demolition Demon assuring long-term load stability Or, can also be equipped with Hendrickson HT300 Air Ride Suspension. Other features include a Heavy-duty top rail clean-off, heavy-duty front rail and a barn-door with w/ skid plate standard.

The [Demolition Demon Steel Dump Trailer](#) comes with a long list of standard features and custom options consisting of the industry best components including optional Aero Tarp systems, multiple axles, including steerable axles and more! The Demolition Demon is sure to make a serious impact in the demolition and wrecking industry.

JMH Trailers Inc., renowned innovators in the truck and trailer industry for over 30 years, JMH Trailers has built their reputation on manufacturing some of the toughest, longest lasting, heavy application trailers in the world, with many of their original steel trailers still on the road after 30 years!
