

Crushed Car Trailers Reach A New Level

Crushed Car Trailers have reached new levels of efficiency with the 48' Drop Front Crushed Car Hauler from JMH Trailers Inc.

JMH Trailer's Crushed Car Trailer **The Ultimate Crushed Car Hauler**

This extra heavy-duty crushed car hauler is the latest in the series of crushed car trailers from JMH Trailers Inc. targeting the crushed car recycling industry.

The [JMH Crushed Car Trailer](#) comes with a long list of standard features and custom options consisting of the industry best components.

At 48' this double drop deck crushed car hauler is precision engineered and constructed with a 18" wide 35lb. per/ft I Beam frame, high quality steel and is quite possibly the world's most durable and efficient crushed car trailer.

The double drop deck and shower curtain side allows for easy loading/unloading capabilities and the heavy-duty ratcheting cable system makes strapping down loads easier, faster and safer.

The heavy-duty Hutch® suspension provides superior load capacity, handling and comes standard with high quality steel rims and Yokohama Tires.

Also standard is a containment system for capturing oil and fluids, instead of spilling fluids on the road.

The 2008 JMH Crushed Car Trailer is sure to make another serious impact in the crushed car and heavy hauling industry.

JMH Trailers Inc., renowned innovators in the truck and trailer industry for over 30 years, JMH Trailers has built their reputation on manufacturing some of the toughest longest lasting heavy application trailers in the world. Some of their original steel trailers are still on the road after 30 years!
